Supporting graph

The graph below is a supporting projection, not a replacement for the underlying records.

Node	Type	Relationship
PA-AST-2048	Composition in Blue #17	central asset
PA-ORG-041	Meridian Institute	issuer / registrar
PA-ACT-827	Private Collector #827	pseudonymous owner
PA-EVT-1994	1994 exhibition	exhibited at
PA-DOC-071	Private catalogue	supports claim

Claims and evidence

Claim ID	Claim	Evidence	Status
PA-CLM-0091	Participation in a 1994 exhibition	Private catalogue; hash included	unverified
PA-CLM-0044	2026 transfer	Contextual signature by representative	verified
PA-CLM-0007	Origin before 1978	Two incompatible documentary sources	disputed

Private source documents are not embedded. Their hashes and access restrictions appear in the companion manifest.

Integrity and signature

The companion package contains this PDF, timeline and graph JSON, a SHA-256 manifest, public key, and Ed25519 signature. The signature is technically real for demonstration purposes, but it does not represent TL2N, ICP-Brasil, gov.br, or legal validity.

Component	Profile	Status
PDF	PDF/A candidate · demo	included
manifest.json	SHA-256	included
signature.bin	Ed25519 · demo	included
public-key.der	SubjectPublicKeyInfo	included
graph.json / timeline.json	machine-readable	included

TL2N INTEGRATION POINT / PONTO DE INTEGRAÇÃO TL2N

Boundaries and disclosures

ProvenArc records claims, evidence, verifications, and contextual signatures. This record does not, by itself, constitute material authentication, expert examination, appraisal, a universal ownership certificate, or a definitive legal decision. Consult the live record for later events, disputes, or revocations.

Verification instructions are included in README.txt inside the portable package.
